

# WORK FLOW PROCESS

Offline Process

The Client Uploads the Data on the **FTP server**.

Mindspace FTP server based in U.S.

These books are uploaded on the Client FTP server.

Work is distributed among the Mindspace team. They will update the books in the software of your choice including quickbooks, sage, peachtree etc.

The whole work is verified by our management team to provide best qualitative services. Then these books are updated on 128-bit encrypted secure server.
